

### **DATA CENTERS CANADA COMMENCES PHASE 3 EXPANSION OF TORONTO NORTH FACILITY**

Vaughan, Ontario Canada – March 31, 2010 – Data Centers Canada a data center provider which operates, develops and manages Canadian real estate for the purpose of providing turn-key data center solutions including colocation and disaster recovery solutions for enterprises, today announced that it has commenced the Phase 3 expansion of its Toronto North data center facility.

The Toronto North facility which is in close proximity to 400 series highways and is minutes away from Pearson International Airport and the downtown financial district provides a state of the art data center environment including;

- \* 2N Redundancy
- \* Carrier Neutral Environment
- \* Managed Meet Me Room
- \* 151 Front Street backhaul provides access to dozens of leading carriers
- \* VESDA & Inergen Systems
- \* Roof top tower colocation available
- \* Triple Layer Security including Biometric Recognition

The Phase 3 build out will provide capacity for an additional 100 cabinets in the facility, predominately configured in private cage and suite environments.
